For all races that no candidate filed, every legible name was hand counted except for any character names such as Superman or Batman. The write-in lines that had a candidate listed and the oval was darkened were counted by the optic scan. However, those that wrote a name and did not darken the oval were not counted by the optic scan. For this reason the verification board and the county clerk choose to hand count all votes where a name was given regardless if the oval was darkened, assuring that every vote was counted. Hence, every written name was counted in all precincts that had no candidate file. Those races that required a hand count the number certified is the combined total of the hand count.

To qualify as the winner for all races that no candidate filed, the candidate must reside within the district and have the highest number of votes.

I, Kay Brown, Clerk of the Christian County Commission, do hereby certify that the above is a true and correct list of the April 6, 2004, Municipal Election results. In testimony whereof, I hereunto set my hand and affix the seal of said County Commission.

Done at the office in Ozark, Missouri, this the 9<sup>th</sup> day of April 2004.

Kay Brown  
Clerk of the County Commission
