Proposed by Initiative Petition

Shall Missouri law be amended to:

- repeal the current individual maximum loss limit for gambling;
- prohibit any future loss limits;
- require identification to enter the gambling area only if necessary to establish that an individual is at least 21 years old;
- restrict the number of casinos to those already built or being built;
- increase the casino gambling tax from 20% to 21%;
- create a new specific education fund from gambling tax proceeds generated as a result of this measure called the "Schools First Elementary and Secondary Education Improvement Fund"; and
- require annual audits of this new fund?

State governmental entities will receive an estimated \$105.1 to \$130.0 million annually for elementary and secondary education, and \$5.0 to \$7.0 million annually for higher education, early childhood development, veterans, and other programs. Local governmental entities receiving gambling boat tax and fee revenues will receive an estimated \$18.1 to \$19.0 million annually.

Shall Missouri law be amended to enable the elderly and Missourians with disabilities to continue living independently in their homes by creating the Missouri Quality Homecare Council to ensure the availability of quality home care services under the Medicaid program by recruiting, training, and stabilizing the home care workforce?

The exact cost of this proposal to state governmental entities is unknown, but is estimated to exceed \$510,560 annually. Additional costs for training are possible. Matching federal funds, if available, could reduce state costs. It is estimated there would be no costs or savings to local governmental entities.

The estimated direct cost to state governmental entities is \$395,183. It is estimated there are no direct costs or savings to local governmental entities. However, indirect costs may be incurred by state and local governmental entities if the proposal results in increased electricity retail rates.
